## REFERENCE LETTER

**Dominik has been creating blog content and product descriptions for my clients, who own large online stores, for 3 years.** He is perfect, primarily in pharmacy (drug-related topics) and the natural cosmetics industry.

**Dominik is very thorough and meticulous.** He always tries to understand the client's needs and expectations of the recipients to create content that will be primarily valuable.

In his work, Dominik uses various sources of information - including scientific research and conversations with experts in a given field. Thanks to this, his content is reliable and based on facts.

I recommend working with this copywriter. He is open to suggestions and ready to introduce changes (if necessary).

Kind regards,

CEO of the SEM Zone - Anna Gawlińska
