REFERENCE LETTER

Dominik has been preparing expert blog content for me for 2 years on SEO, Google Ads, web development, and application development. The submitted texts are substantive and professional and rank in the TOP 10 of Google (or higher).

Dominic is punctual. **He is distinguished by good contact with the client.** He will easily brief the content, ask about the most essential aspects and write content using established assumptions. I appreciate this cooperation very much. Dominik also helps me create articles for clients (e.g., from the architectural, clothing, construction, and medical industries).
